CARLINGTON'S Patent Premium Grain THRASHER.

PATENTED March 21st, 1852. The subscriber, having purchased the Patent Right for manufacturing and vending this com plete Thrasher, in the counties of Rowan fredell, Catawba, Davie, and Alexander in the State of North Carolina, respectfully begs leave to call public attention to it. I have in my possession the voluntary testi-mony of scores of intelligent farmers who have

thoroughly tested the superiority of this Thrash-er, and they all unite in saying that it greatly excels all others in every respect.

In Georgia, where it was invented, the Garlington Thrasher, as soon as it was fairly intro-duced, superceded all others, as will appear from the testimony of Thos. Sharpe, H. P. Richards, John W. Aiken, Stephen A. Brown, N. Philips, Thos. J. Smith, Wm. Lane, Reuben Woodruff, Jno. Smith, Wm. Pettigrew, J. H. Oliver, all of Newton County, Ga., Thos. S. Oliver, all of Newton County, Ga., Thes. S. Crawford, E. B. Arnold, James Glass, Albert Daniel, Joseph Maddox, John V. Evans, Wm. Greer, all of Henry county, John Garlington. George Seabron. Editor of the Farmer & Planter. S. C., and hundreds of others. I might print pages of certificates as strong as language can make them; but, for its brevity, I select only the following given by one of the most successful wheat growers in Georgia.

Georgia. Fayette Co:

GEORGIA, FAYETTE Co: This is to certify that the Thrasher patented by J. L. Garlington, runs lighter and thrashes wheat cleaner than any I have ever used, and is all it is regommended to be; and I would advise all those in need of any thing of the kind to purchase one of these in preference to any othor now in use.

About late Black Republican victory in some of of the late election, in which he annount thirty of that number were young ladie connected with Glen Anna Female Seminary: which is located in this thriving and picturesque village. Indeed, the interest first began in the school, and was for a few of the South.". The Watchman, while it must be abolished everywhere. But, as days confined principally to it, but the reheartily rejuices at this undeniable result, the continued success of the Democratic vival influence soon spread in the village and vicinity, until all, so far as I could learn were very much interested in the

success of the meeting.
With your permission, Mr. Editor, I will say a few things in regard to this young

and flourishing institution of learning.

There is here a large, four story brick uilding, most beautifully situated; so arranged that there are school rooms enough to accommodate, at least, one hundred and fifty young ladies; and any number can find board in the Seminary or village, as they may desire. There is now a full corps of teachers employed by the energetic proprietor; and each one is unquestionably, fully competent for the situation she occupies. And while I would make no invidious distinction between them, I may be allowed to say of the principal Miss Lathrop, that I regard her in scholar ship, temper, and womanly deportme peculiarly qualified for the responsible position she occupies : and she has, so far as I bave learned, given entire satisfaction to all concerned, since her connection with

the Seminary. This is not a sectarian school, but the christian religion is one of its predominant elements. All the teachers are in communion with some branch of the church. and all the young ladies who had not been previously converted, professed to find the pearl of great price,' during the revival, with the exception of two or three. There is a weekly prayer meeting held by the teachers for the special benefit of the school. and it was no doubt owing to this, together with their active co-operation, that we were successful in getting so many of the stu-

dents converted. Glen Anna is now in a very flourishing condition with the right sort of teachers, a arge number of students, (94) and God's dessing upon it, it promises to do a great deal for the race. Send on your daughters; they will be cared for, and may here receive that mental culture and moral improvement, which is so necessary to prepare them for the responsible duties of lite. It is proper that I should say, that the revival interfered but little with the reguar recitations. S. D. ADAMS.

### From the Lancaster Ledger. Jackson's Birth Place.

Gen. S. H. Walkup has shown where Jackson was born, according Cleveland, to the evidence adduced. But the Craven, question where ought Jackson to have been born is by no means unimportant. The following is offered Davidson, as an answer to that question:

May we not reasonably suppos that it was the desire and purpose of General Jackson and his mother that he should be born in South Carolina? But they were frustrate in the worthy design. It is admitte that he was born in North Carolina As soon after the death of old Ma Jackson—the Lusband and father— as was practicable, Mr. Jackson tool her journey for South Carolina.-On account of the poverty or unkind ness of old Mr. Winkle, she was no permitted to have a horse, a pony of even an ox to travel on, but unde took the journey on foot. The hills crooked, rough, unposted and un pointed "paths" in North Carolina with the scanty fare of the way, so exhausted Mrs Jackson's strengtl that she was unable to get off th "strip of land" into "Carolina" be fore Andrew was born. As early as "could be expect," leaving the swaddling clothes, &c., in North Carolina, Mrs. Jackson gathered he child in her arms and while uncl Rip was yet asteep she struck a 'be line' for South Carolina where grea men are raised and also born when mothers are not forced to a prema ture delivery.

The impression that Jackson was born in South Carolina may be accounted for in any one of four ways 1. His mother told him "he wa born in the Waxhaws," omitting t tell him whether in the North Card lina or South Carolina part of th Waxhaws. Having such latitude for the location of his birth-place, Andrew chose to have in South CarSampson, olina. 2. Or, his mother told him Stanly, he was born while on the road to Stokes, his 'uncle Crawford's' in South Carolina. Here was a similar latitude Tyrrell, for the play of the General's inclina- Union, tion, accordingly he selected only so Wake, much of the road as lies in South Warren, Carolina or a road that does not run Washingto into North Carolina at all. 3, Or, Wataugi she not wishing to crush the aspira- Wayne, Wilkes, tions of her son, kept the place of his Wilson, birth a secret from him and as his Yadkin, earliest recollections were in South Carolina he very naturally concluded he was born there. 4, Or, his mother did tell him that he was born in

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness. BRIMPIELD, MASS., 20th Dec., 1855.

Dr. J. G. Affer. I. do not hesitate to say the best remedy I have ever found for Coughs, Hoatseness. Influenza. and the concomitant symptoms of a Cold. is your CHERRY PLCTORIAL. Its constant use in may practice and my family for the last ten years has shown it to possess superior victues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Uvica, N. Y., writes: "I have used your Pectand myself and in my family ewer since you invented it, and believe it the best medicine for its purpose eve put out. With a bad cold I shruld soone pay twenty-five dollars for a bottle than do without it, of take any other remedy."

Croup, Whooping Cough, Influenza.

Spainagreen, Miss., Feb. 7, 1856.

Brother Ayer: I will chaerfully certify your Pectoral is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTERET. I.A., writes, 3d Jan., 1856:

"I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your Pectoral by the advice of our clergyman. The first does relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

West Mancaurza, Pa., Feb. 4, 1866.

Sir: Your Cherry Pectoral is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.

HENRY L. PARKS, Merchant.

A. A. RAMSET, M. D., Alsion, Morros Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your Cherry Pectoral for giving used and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Cherry Pectoral affords relief and comfort.

no human aid can reach; but even to those the Cherry Peterral affords relief and comfort.

Aston House, New York City, March 5, 1856.

Doctor Ayer, Lowell: I feel it a duly and a pleasure to inform you what your Cherry Peterral has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily falling, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bleas his kindness, as we do your skill; for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SRELBYVILE.

Ayer's Cathartic Pills. THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffed the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. as to forbid the suspicion of untruth.
